Item 4: Advisory Business

Description of Advisory Firm

Wellfin360 is an Investment Adviser principally located in the state of Massachusetts. We are a limited liability company founded in May of 2022. Wellfin360 became registered in 2024. Samantha Morales is the principal owner and Chief Compliance Officer ("CCO").

As used in this brochure, the words "WF", "we", "our firm", "Advisor" and "us" refer to Wellfin360 and the words "you", "your" and "Client" refer to you as either a client or prospective client of our firm.

Types of Advisory Services

WF is a fee-only firm, meaning the only compensation we receive is from our Clients for our services. We offer Investment Management, Financial Planning and Educational Seminars/Speaking Engagements.

Investment Management Services

Our firm provides continuous advice to a Client regarding the investment of Client funds based on the individual needs of the Client. Through personal discussions in which goals and objectives based on a Client's particular circumstances are established, we develop a Client's personal investment policy or an investment plan with an asset allocation target and create and manage a portfolio based on that policy and allocation targets. We will also review and discuss a Client's prior investment history, as well as family composition and background. Account supervision is guided by the stated objectives of the Client (e.g., maximum capital appreciation, growth, income, or growth, and income), as well as risk tolerance and tax considerations.

We primarily advise our Clients regarding investments in mutual funds, ETFs and cash and cash equivalents. We may also provide advice regarding investments held in Client's portfolio at the inception of our advisory relationship and/or other investment types not listed above, at the Client's request.

When we provide investment management services, Clients grant us limited authority to buy and sell securities on a discretionary basis. More information on our trading authority is explained in Item 16 of this Brochure. Clients may impose reasonable restrictions on investing in certain securities, types of securities, or industry sectors.

When appropriate, we utilize the services of third-party investment advisers ("Outside Managers") to assist with the management of Client accounts. We assist Clients in selecting an appropriate allocation model, completing the Outside Manager's investor profile questionnaire, interacting with the Outside Manager and reviewing the Outside Manager. Our review process and analysis of Outside Managers is further discussed in Item 8 of this Brochure. Additionally, we will meet with the Client on a periodic basis to discuss changes in their personal or financial situation, suitability, and any new or revised restrictions to be applied to the account.

XY Investment Solutions ("XYIS")

XY Investment Solutions, LLC, CRD No. 285967 ("XYIS"), an unaffiliated SEC-registered investment adviser, constructs and manages investment models ("Model Portfolios") through a technology solution. XYIS supports investment advisers with investment strategies based on research, experience, and sound rationale. XYIS manages its Model Portfolios on a discretionary basis primarily by allocating Client assets among various mutual funds and exchange-traded funds ("ETFs"). XYIS may also allocate Client assets in individual debt and equity securities. XYIS' services are based on long-term investment strategies incorporating the principles of Modern Portfolio Theory. While XYIS will buy and sell securities for the Model Portfolios, Wellfin360 is responsible for choosing the specific model and allocation on behalf of Clients.

Financial Planning Services

Financial planning involves an evaluation of a Client's current and future financial state by using currently known variables to predict future cash flows, asset values, and withdrawal plans. The key defining aspect of financial planning is that through the financial planning process, all questions, information, and analysis will be considered as they affect and are affected by the entire financial and life situation of the Client. Clients purchasing this service will receive a written report, providing the Client with a detailed financial plan designed to help achieve the Client's stated financial goals and objectives.

In general, the financial plan will address some or all of the following areas of concern. The Client and WF will work together to select specific areas to cover. These areas may include, but are not limited to, the following:

- **Business Planning:** We provide consulting services for Clients who currently operate their own business, are considering starting a business, or are planning for an exit from their current business. Under this type of engagement, we work with you to assess your current situation, identify your objectives, and develop a plan aimed at achieving your goals.
- **Cash Flow and Debt Management:** We will conduct a review of your income and expenses to determine your current surplus or deficit along with advice on prioritizing how any surplus should be used or how to reduce expenses if they exceed your income. Advice may also be provided on which debts to pay off first based on factors such as the interest rate of the debt and any income tax ramifications. We may also recommend what we believe to be an appropriate cash reserve that should be considered for emergencies and other financial goals, along with a review of accounts (such as money market funds) for such reserves, plus strategies to save desired amounts.
- **College Savings:** Includes projecting the amount that will be needed to achieve college or other post-secondary education funding goals, along with advice on ways for you to save the desired amount. Recommendations as to savings strategies are included, and, if needed, we will review your financial picture as it relates to eligibility for financial aid or the best way to contribute to children and grandchildren (if appropriate).
- **Employee Benefits Optimization:** We will provide review and analysis as to whether you, as an employee, are taking the maximum advantage possible of your employee benefits. If you are a business owner, we will consider and/or recommend the various benefit programs that can be

structured to meet both business and personal retirement goals.

- **Estate Planning:** This usually includes an analysis of your exposure to estate taxes and your current estate plan, which may include whether you have a will, powers of attorney, trusts, and other related documents. Our advice also typically includes ways for you to minimize or avoid future estate taxes by implementing appropriate estate planning strategies such as the use of applicable trusts. We always recommend that you consult with a qualified attorney when you initiate, update, or complete estate planning activities. We may provide you with contact information for attorneys who specialize in estate planning when you wish to hire an attorney for such purposes. From time-to-time, we will participate in meetings or phone calls between you and your attorney with your approval or request.
- **Financial Goals:** We will help Clients identify financial goals and develop a plan to reach them. We will identify what you plan to accomplish, what resources you will need to make it happen, how much time you will need to reach the goal, and how much you should budget for your goal.
- **Insurance:** Review of existing policies to ensure proper coverage for life, health, disability, long-term care, liability, home, and automobile.
- **Investment Analysis:** This may involve developing an asset allocation strategy to meet Clients' financial goals and risk tolerance, providing information on investment vehicles and strategies, reviewing employee stock options, as well as assisting you in establishing your own investment account at a selected broker/dealer or custodian. The strategies and types of investments we may recommend are further discussed in Item 8 of this brochure.
- **Retirement Planning:** Our retirement planning services typically include projections of your likelihood of achieving your financial goals, typically focusing on financial independence as the primary objective. For situations where projections show less than the desired results, we may make recommendations, including those that may impact the original projections by adjusting certain variables (e.g., working longer, saving more, spending less, taking more risk with investments).

If you are near retirement or already retired, advice may be given on appropriate distribution strategies to minimize the likelihood of running out of money or having to adversely alter spending during your retirement years.

- **Risk Management:** A risk management review includes an analysis of your exposure to major risks that could have a significant adverse impact on your financial picture, such as premature death, disability, property and casualty losses, or the need for long-term care planning. Advice may be provided on ways to minimize such risks and about weighing the costs of purchasing insurance versus the benefits of doing so and, likewise, the potential cost of not purchasing insurance ("self-insuring").
- **Tax Planning Strategies:** Advice may include ways to minimize current and future income taxes as a part of your overall financial planning picture. For example, we may make recommendations on which type of account(s) or specific investments should be owned based in part on their "tax efficiency," with the consideration that there is always a possibility of future changes to federal, state or local tax laws and rates that may impact your situation.

We recommend that you consult with a qualified tax professional before initiating any tax planning strategy, and we may provide you with contact information for accountants or attorneys who specialize in this area if you wish to hire someone for such purposes. We will participate in meetings or phone calls between you and your tax professional with your approval.

Financial Planning Services are offered on a Project-Based and via an Ongoing engagement.

Ongoing Financial Planning. This service involves working one-on-one with a financial planner (“planner”) over an extended period of time. Through this ongoing arrangement, Clients are expected to collaborate with the planner to develop and assist in the implementation of their financial plan (the “plan”). The planner will monitor the plan, recommend any appropriate changes and ensure the plan is up-to-date as the Client’s situation, goals, and objectives evolve.

Upon engaging the firm for financial planning, WF is responsible for obtaining and analyzing all necessary qualitative and quantitative information from the Client that is essential to understanding the Client’s personal and financial circumstances; helping the Client identify, select, and prioritize certain financial goals while understanding the effect that pursuing one goal may have on other potential goals; assessing the Client’s current course of action and alternative courses of action to identify required changes that provide the best opportunity for the client to meet their financial goals; developing & presenting financial planning recommendations based on the aforementioned actions while including all information that was required to be considered in preparing the recommendations; and ongoing monitoring of the Client’s progress toward the goals and objectives that the recommendations are based around. These components all require in-depth communication with the Client in order for the planner to establish a financial plan and implementation strategy that provides the Client with the most appropriate options in pursuing their established goals and objectives.

Project-Based Financial Planning. We provide project-based financial planning services on a limited scope of one-time engagement. Project-Based Financial Planning is available for Clients looking to address specific questions or issues. The Client may choose from one or more of the above topics to cover or other areas as requested and agreed to by WF. For Project-Based Financial Planning, the Client will be ultimately responsible for the implementation of the financial plan.

Educational Seminars / Speaking Engagements

We may provide seminars for groups seeking general advice on investments and other areas of personal finance. These seminars are purely educational in nature and do not involve the sale of any investment products. Information presented will not be based on any individual’s need, nor does WF provide individualized investment advice to attendees during these seminars. Topics covered during educational seminars will be determined by the Client and WF.

Client Tailored Services and Client Imposed Restrictions

We tailor the delivery of our services to meet the individual needs of our Clients. We consult with Clients initially and on an ongoing basis, through the duration of their engagement with us, to determine risk tolerance, time horizon and other factors that may impact the Clients’ investment and/or planning needs.

Clients are able to specify, within reason, any restrictions they would like to place as it pertains to individual securities and/or sectors that will be advised on or recommended. All such requests must be provided to WF in writing. WF will notify Clients if they are unable to accommodate any requests.

Wrap Fee Programs

We do not participate in wrap fee programs.

Assets Under Management

As of December 31st, 2024, WF has \$734,308 in discretionary and \$0 in non-discretionary assets under management.

Item 5: Fees and Compensation

Please note, unless a Client has received this brochure at least 48 hours prior to signing an Advisory Contract, the Advisory Contract may be terminated by the Client within five (5) business days of signing the Advisory Contract without penalty.

How we are paid depends on the type of advisory services we perform. Below is a brief description of our fees, however, you should review your executed Advisory Contract for more detailed information regarding the exact fees you will be paying. No increase to the agreed-upon advisory fees outlined in the Advisory Contract shall occur without prior client consent.

Investment Management Services

The fee is based on a percentage of assets under management and is negotiable. The annualized fees for investment management services are based on the following fee schedule:

Assets Under Management	Annual Advisory Fee
\$0 - \$250,000	1.00%
\$250,001 - \$500,000	0.90%
\$500,001 - \$1,000,000	0.80%
\$1,000,001 - \$5,000,000	0.70%
\$5,000,001 - \$10,000,000	0.60%
\$10,000,001 - \$20,000,000	0.50%
\$20,000,001 and Above	0.45%

The annual advisory fee is paid monthly in arrears based on the value of Client's account(s) as of the last day of the billing period. The advisory fee is a straight tier. For example, for assets under management of \$2,000,000, a Client would pay 0.70%. The monthly fee is determined by the following calculation: $(\$2,000,000 \times 0.70\%) \div 12 = \$1,166.67$. The above fee schedule includes the Outside Manager's fee. The Outside Manager will debit the Client's account for both the Outside Manager's fee, and Wellfin's advisory fee, and will remit Wellfin's fee to Wellfin.

In determining the advisory fee, we may allow accounts of members of the same household to be aggregated. Wellfin360 relies on the valuation as provided by Client's custodian in determining assets under management. Our advisory fee is prorated for any partial billing periods occurring during the engagement, including the initial and terminating billing periods. Clients may make additions or withdrawals from their account at any time; however, Wellfin360 reserves the right to adjust our advisory fees on a pro-rata basis on account of any such cash-flow transactions.

Ongoing Financial Planning is included without an additional fee for Clients with assets under management above \$300,000.

Ongoing Financial Planning

We charge a recurring fixed fee for Ongoing Financial Planning. Fees are paid monthly in arrears, ranging from \$120 - \$300. The fee range is dependent upon variables including the specific needs of the Client, complexity, estimated time, research, and resources required to provide services to you, among other factors we deem relevant. Fees are negotiable and the final agreed upon fee will be outlined in your Advisory Contract.

WF collects an initial fee, no greater than \$500. The initial fee covers the initial construction of the comprehensive financial plan. This work will commence immediately after the fee is paid, and the length of time required to complete and deliver the plan is dependent on several factors including the needs of the Client, the Client's ability to provide any necessary information and documentation, as well as the complexity of their financial situation. Advisor may reduce or waive the initial fee at the Advisor's discretion. At no time do we require prepayment of \$500 or more six months or more in advance of rendering the services.

Project-Based Financial Planning

We charge a fixed fee of \$1,000 - \$1,900 for Project-Based Financial Planning. The fee is dependent upon variables including the specific needs of the Client, complexity, estimated time, research, and resources required to provide services to you, among other factors we deem relevant. Fees are negotiable and the final agreed upon fee will be outlined in your Advisory Contract. WF collects half of the fee to be collected half in advance with the remainder due upon completion of the services. WF will not bill an amount above \$500 more than 6 months or more in advance of rendering the services.

Educational Seminars / Speaking Engagements

Seminars and speaking engagements are offered to organizations and the public on a variety of financial topics. Fees range from \$1,200 - \$5,000 per seminar or \$50 - \$100 per participant. The fee range is based on the content, amount of research conducted, the number of hours of preparation needed, and the number of attendees. WF collects half of the fee in advance with the remainder due at the conclusion of the Seminar. Advisor offers its services in a virtual or in-person setting. Should the event require travel arrangements, both parties must agree to the terms of travel (i.e., cost, distance, hotel arrangements) at the start of the engagement.

Fee Payment

For Investment Management services, we deduct our advisory fee from one or more account(s) held at an unaffiliated third-party custodian, as directed by the Client. Please refer to Item 15 of this Brochure regarding our policy on direct fee deduction. Clients may also pay by electronic funds transfer (EFT). We use an independent third party payment processor in which the Client can securely input their banking information and pay their fee. We do not have access to the Client's banking information at any time. The Client will be provided with their own secure portal in order to make payments. Clients can also have their managed accounts directly debited. When an Outside Manager is used, the Outside Manager will debit the Client's account for both the Outside Manager's fee, and WF's's advisory fee.

For Financial Planning services and Educational Seminars / Speaking Engagements, fees are paid by electronic funds transfer (EFT) or check. We use an independent third party payment processor in which the Client can securely input their banking information and pay their fee. We do not have access to the Client's banking information at any time. The Client will be provided with their own secure portal in order to make payments.

Other Types of Fees and Expenses

Our fees are exclusive of brokerage commissions, transaction fees, and other related costs and expenses which may be incurred by the Client. Clients may incur certain charges imposed by custodians, brokers, and other third parties such as custodial fees, deferred sales charges, odd-lot differentials, transfer taxes, wire transfer, and electronic fund fees, and other fees and taxes on brokerage accounts and securities transactions. Mutual fund and exchange-traded funds also charge internal management fees, which are disclosed in a fund's prospectus. Such charges, fees, and commissions are exclusive of and in addition to our fee, and we shall not receive any portion of these commissions, fees, and costs.

Item 12 further describes the factors that we consider in selecting or recommending custodians for Client's transactions and determining the reasonableness of their compensation (e.g., commissions).

Clients may incur fees from third-party professionals such as accountants and attorneys that WF may recommend, upon Client request. Such fees are separate and distinct from WF's advisory fees.

Terminations and Refunds

For Investment Management services the Advisory Contract may be terminated with written notice at least 30 calendar days in advance. Since fees are paid in arrears, no refund will be needed upon termination of the Advisory Contract. Clients will be responsible for payment of fees up to the date of termination.

For Ongoing Financial Planning services, the Advisory Contract may be terminated with written notice at least 30 calendar days in advance. In the event of early termination prior to the initial plan being delivered, fees will be prorated and any unearned fees will be refunded to the Client. Since ongoing fees are paid in arrears, no refund will be needed upon termination of the Advisory Contract. Clients will be responsible for payment of fees up to the date of termination, based on the percentage of work completed by the Advisor.

For Project-Based Financial Planning services, this service is not an ongoing engagement, thus upon receipt of the final fees, the Advisory Contract will automatically be terminated. Clients may terminate at any time provided written notice. If fees are paid in advance, a prorated refund will be given, if applicable, upon termination of the Advisory Contract for any unearned fee.

For Educational Seminars and Speaking Engagements, Advisor or Clients may cancel the event with 30 days' advance written notice. Should the Client cancel the event within 30 days of the event (with the exception of weather or similar unforeseen causes), the Client will be responsible for reimbursement of any non-refundable travel expenses already incurred and a prorated fee for any work conducted in preparation of the event, based on the percentage of work done and the flat fee agreed upon by both parties.

Sale of Securities or Other Investment Products

Advisor and its supervised persons do not accept compensation for the sale of securities or other investment products including asset-based sales charges or service fees from the sale of mutual funds.

Item 6: Performance-Based Fees and Side-By-Side Management

We do not offer performance-based fees and do not engage in side-by-side management.

Item 7: Types of Clients

We provide financial planning and investment management services to individuals, high net-worth individuals, charitable organizations, or other small businesses.

We do not have a minimum account size requirement.

Item 8: Methods of Analysis, Investment Strategies, and Risk of Loss

Below is a brief description of our methods of analysis and primary investment strategies or when we provide securities recommendations in the context of a financial plan.

Methods of Analysis

Fundamental analysis involves analyzing individual companies and their industry groups, such as a company's financial statements, details regarding the company's product line, the experience, and expertise of the company's management, and the outlook for the company's industry. The resulting data is used to measure the true value of the company's stock compared to the current market value. The risk of fundamental analysis is that the information obtained may be incorrect and the analysis may not provide an accurate estimate of earnings, which may be the basis for a stock's value. If securities prices adjust rapidly to new information, utilizing fundamental analysis may not result in favorable performance.

Technical analysis involves using chart patterns, momentum, volume, and relative strength in an effort to pick sectors that may outperform market indices. However, there is no assurance of accurate forecasts or that trends will develop in the markets we follow. In the past, there have been periods without discernible trends and similar periods will presumably occur in the future. Even where major trends develop, outside factors like government intervention could potentially shorten them.

Furthermore, one limitation of technical analysis is that it requires price movement data, which can translate into price trends sufficient to dictate a market entry or exit decision. In a trendless or erratic market, a technical method may fail to identify trends requiring action. In addition, technical methods may overreact to minor price movements, establishing positions contrary to overall price trends, which may result in losses. Finally, a technical trading method may underperform other trading methods when fundamental factors dominate price moves within a given market.

Mutual Fund and/or ETF Analysis: We look at the experience and track record of the manager of the mutual fund or ETF in an attempt to determine if that manager has demonstrated an ability to invest over a period of time and in different economic conditions. We also look at the underlying assets in a mutual fund or ETF in an attempt to determine if there is significant overlap in the underlying investments held in other funds in the Client's portfolio. In addition, we monitor the funds or ETFs in an attempt to determine if they are continuing to follow their stated investment strategy.

A risk of mutual fund and/or ETF analysis is that, as in all securities investments, past performance does not guarantee future results. A manager who has been successful may not be able to replicate that success in the future. In addition, as we do not control the underlying investments in a fund or ETF, managers of different funds held by the client may purchase the same security, increasing the risk to the client if that security were to fall in value. There is also a risk that a manager may deviate from the stated investment mandate or strategy of the fund or ETF, which could make the fund or ETF less suitable for the Client's portfolio.

Use of Outside Managers: We may refer Clients to Third Party Investment Advisers or advisory programs ("Outside Managers"). Our analysis of Outside Managers involves the examination of the experience, expertise, investment philosophies, and past performance of the Outside Managers in an attempt to determine if that Outside Manager has demonstrated an ability to invest over a period of time and in different economic conditions. We monitor the Outside Manager's underlying holdings, strategies, concentrations, and leverage as part of our overall periodic risk assessment. Additionally, as part of our due diligence process, we survey the Outside Manager's compliance and business enterprise risks. A risk of investing with an Outside Manager who has been successful in the past is that they may not be able to replicate that success in the future. In addition, we do not control the underlying investments in an Outside Manager's portfolio. There is also a risk that an Outside Manager may deviate from the stated investment mandate or strategy of the portfolio, making it a less suitable investment for our Clients. Moreover, as we do not control the Outside Manager's daily business and compliance operations, we may be unaware of the lack of internal controls necessary to prevent business, regulatory or reputational deficiencies.

Investment Strategies

Asset Allocation

In implementing our Clients' investment strategy, we begin by attempting to identify an appropriate ratio of equities, fixed income, and cash (i.e. "asset allocation") suitable to the Client's investment goals and risk tolerance.

A risk of asset allocation is that the Client may not participate in sharp increases in a particular security, industry or market sector. Another risk is that the ratio of equities, fixed income, and cash will change over time due to stock and market movements and, if not corrected, will no longer be appropriate for the Client's goals. We attempt to closely monitor our asset allocation models and make changes periodically to keep in line with the target risk tolerance model.

Passive Investment Management

Passive investing involves building portfolios that are composed of various distinct asset classes. The asset classes are weighted in a manner to achieve the desired relationship between correlation, risk, and return. Funds that passively capture the returns of the desired asset classes are placed in the portfolio. The funds that are used to build passive portfolios are typically index mutual funds or exchange-traded funds.

Passive investment management is characterized by low portfolio expenses (i.e. the funds inside the portfolio have low internal costs), minimal trading costs (due to infrequent trading activity), and relative tax efficiency (because the funds inside the portfolio are tax efficient and turnover inside the portfolio is minimal).

In contrast, active management involves a single manager or managers who employ some method, strategy or technique to construct a portfolio that is intended to generate returns that are greater than the broader market or a designated benchmark.

Long-term/Short-term purchases

We purchase securities and generally hold them in the Client's account for a year or longer. Short-term purchases may be employed as appropriate when:

- We believe the securities to be currently undervalued, and/or

- We want exposure to a particular asset class over time, regardless of the current projection for this class.

A risk in a long-term purchase strategy is that by holding the security for this length of time, we may not take advantage of short-term gains that could be profitable to a client. Moreover, if our predictions are incorrect, a security may decline sharply in value before we make the decision to sell.

Material Risks Involved

All investing strategies we offer involve risk and may result in a loss of your original investment which you should be prepared to bear. Many of these risks apply equally to stocks, bonds, commodities, and any other investment or security. Material risks associated with our investment strategies are listed below.

Market Risk: Market risk involves the possibility that an investment's current market value will fall because of a general market decline, reducing the value of the investment regardless of the operational success of the issuer's operations or its financial condition.

Strategy Risk: The Adviser's investment strategies and/or investment techniques may not work as intended.

Small and Medium Cap Company Risk: Securities of companies with small and medium market capitalizations are often more volatile and less liquid than investments in larger companies. Small and medium cap companies may face a greater risk of business failure, which could increase the volatility of the Client's portfolio.

Turnover Risk: Actively managed mutual funds tend to have a higher turnover rate than passive funds. A high portfolio turnover would result in higher transaction costs and in higher taxes when shares are held in a taxable account. These factors may negatively affect the account's performance.

Limited markets: Certain securities may be less liquid (harder to sell or buy) and their prices may at times be more volatile than at other times. Under certain market conditions, we may be unable to sell or liquidate investments at prices we consider reasonable or favorable or find buyers at any price.

Interest Rate Risk: Bond (fixed income) prices generally fall when interest rates rise, and the value may fall below par value or the principal investment. The opposite is also generally true: bond prices generally rise when interest rates fall. In general, fixed income securities with longer maturities are more sensitive to these price changes. Most other investments are also sensitive to the level and direction of interest rates.

Legal or Legislative Risk: Legislative changes or Court rulings may impact the value of investments, or the securities' claim on the issuer's assets and finances.

Inflation: Inflation may erode the buying power of your investment portfolio, even if the dollar value of your investments remains the same.

Risks Associated with Securities

Apart from the general risks outlined above which apply to all types of investments, specific securities may have other risks.

Exchange Traded Funds prices may vary significantly from the Net Asset Value due to market conditions. Certain Exchange Traded Funds may not track underlying benchmarks as expected. ETFs are also subject to the following risks: (i) an ETF's shares may trade at a market price that is above (premium) or below (discount) their net asset value and an ETF purchased at a premium may ultimately be sold at a discount; (ii) trading of an ETF's shares may be halted if the listing exchange's officials deem such action appropriate, the shares are delisted from the exchange, or the activation of market-wide "circuit breakers" (which are tied to large decreases in stock prices) halts stock trading generally. The Adviser has no control over the risks taken by the underlying funds in which the Clients invest.

Mutual Funds When a Client invests in open-end mutual funds or ETFs, the Client indirectly bears its proportionate share of any fees and expenses payable directly by those funds. Therefore, the Client will incur higher expenses, many of which may be duplicative. In addition, the Client's overall portfolio may be affected by losses of an underlying fund and the level of risk arising from the investment practices of an underlying fund (such as the use of derivatives).

Item 9: Disciplinary Information

Criminal or Civil Actions

WF and its management persons have not been involved in any criminal or civil action.

Administrative Enforcement Proceedings

WF and its management persons have not been involved in any administrative enforcement proceedings.

Self-Regulatory Organization Enforcement Proceedings

WF and its management persons have not been involved in any self-regulatory organization (SRO) proceeding.

Clients can obtain the disciplinary history of Wellfin360 or any of its representatives from the Massachusetts Securities Division upon request by calling (617) 727-3548.

Item 10: Other Financial Industry Activities and Affiliations

Broker-Dealer Affiliation

Neither WF or its management persons is registered, or have an application pending to register, as a broker-dealer or a registered representative of a broker-dealer.

Other Affiliations

Neither WF or its management persons is registered, or have an application pending to register, as a futures commission merchant, commodity pool operator, commodity trading advisor, or an associated person of the foregoing entities.

Related Persons

Neither WF or its management persons have any relationship or arrangement with any outside financial industry related parties.

Recommendations or Selections of Other Investment Advisers

We do not recommend or select other investment advisers for our clients.

Item 11: Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

As a fiduciary, our firm has a duty of utmost good faith to act solely in the best interests of each Client. Our Clients entrust us with their funds and personal information, which in turn places a high standard on our conduct and integrity. Our fiduciary duty is a core aspect of our Code of Ethics and represents the expected basis of all of our dealings.

Code of Ethics Description

This Code of Ethics does not attempt to identify all possible conflicts of interest, and compliance with each of its specific provisions will not shield our firm or its access persons from liability for misconduct that violates a fiduciary duty to our Clients. A summary of the Code of Ethics' Principles is outlined below.

- **Integrity** - Access persons shall offer and provide professional services with integrity.
- **Objectivity** - Access persons shall be objective in providing professional services to Clients.
- **Competence** - Access persons shall provide services to Clients competently and maintain the necessary knowledge and skill to continue to do so in those areas in which they are engaged.
- **Fairness** - Access persons shall perform professional services in a manner that is fair and reasonable to Clients, principals, partners, and employers, and shall disclose conflict(s) of interest in providing such services.
- **Confidentiality** - Access persons shall not disclose confidential Client information without the specific consent of the Client unless in response to proper legal process, or as required by law.
- **Professionalism** - Access persons conduct in all matters shall reflect the credit of the profession.
- **Diligence** - Access persons shall act diligently in providing professional services.

We periodically review and amend our Code of Ethics to ensure that it remains current, and we require all firm access persons to attest to their understanding of and adherence to the Code of Ethics at least annually. Our firm will provide a copy of its Code of Ethics to any Client or prospective Client upon request.

Investment Recommendations Involving a Material Financial Interest and Conflicts of Interest

Our firm, its access persons, and its related persons may buy or sell securities similar to, or different from, those we recommend to Clients. In an effort to reduce or eliminate certain conflicts of interest, our Code of Ethics may require that we restrict or prohibit access persons' transactions in specific reportable securities. Any exceptions or trading pre-clearance must be approved by WF's Chief Compliance Officer in advance of the transaction in an account. WF maintains a copy of access persons' personal securities transactions as required.

Trading Securities At/Around the Same Time as Client's Securities

From time to time our firm, its access persons, or its related persons may buy or sell securities for themselves at or around the same time as they buy or sell securities for Clients' account(s). To address this conflict, it is our policy that neither our firm or access persons shall have priority over Clients' accounts in the purchase or sale of securities.

Item 12: Brokerage Practices

Factors Used to Select Custodians

WF does not have any affiliation with any custodian we recommend. Specific custodian recommendations are made to the Client based on their need for such services. We recommend custodians based on the reputation and services provided by the firm.

In recommending custodians, we have an obligation to seek the “best execution” of transactions in Client accounts. The determinative factor in the analysis of best execution is not the lowest possible commission cost, but whether the transaction represents the best qualitative execution, taking into consideration the full range of the custodian’s services. The factors we consider when evaluating a custodian for best execution include, without limitation, the custodian’s:

- Combination of transaction execution services and asset custody services (generally without a separate fee for custody);
- Capability to execute, clear, and settle trades (buy and sell securities for your account);
- Capability to facilitate transfers and payments to and from accounts (wire transfers, check requests, bill payment, etc.);
- Breadth of available investment products (stocks, bonds, mutual funds, exchange-traded funds (ETFs), etc.);
- Availability of investment research and tools that assist us in making investment decisions;
- Quality of services;
- Competitiveness of the price of those services (commission rates, margin interest rates, other fees, etc.) and willingness to negotiate the prices;
- Reputation, financial strength, security and stability;
- Prior service to us and our clients.

With this in consideration, our firm recommends Charles Schwab and Altruist Financial LLC, as independent and unaffiliated SEC registered broker-dealer firms and members of the Financial Industry Regulatory Authority (“FINRA”) and the Securities Investor Protection Corporation (“SIPC”).

Research and Other Soft-Dollar Benefits

We do not have any soft-dollar arrangements with custodians whereby soft-dollar credits, used to purchase products and services, are earned directly in proportion to the amount of commissions paid by a Client. However, as a result of being on their institutional platform, Charles Schwab and Altruist Financial LLC may provide us with certain services that may benefit us.

Charles Schwab

Schwab Advisor Services™ is Schwab’s business serving independent investment advisory firms like us. They provide our Clients and us with access to their institutional brokerage services (trading, custody, reporting and related services), many of which are not typically available to Schwab retail customers. Schwab also makes available various support services. Some of those services help us manage or administer our Clients’ accounts, while others help us manage and grow our business. Schwab’s support services are generally available on an

unsolicited basis (we don't have to request them) and at no charge to us. The benefits received by Advisor or its personnel do not depend on the number of brokerage transactions directed to Schwab. As part of its fiduciary duties to Clients, Advisor at all times must put the interests of its Clients first. Clients should be aware, however, that the receipt of economic benefits by Advisor or its related persons in and of itself creates a potential conflict of interest and may indirectly influence the Advisor's choice of Schwab for custody and brokerage services. This conflict of interest is mitigated as Advisor regularly reviews the factors used to select custodians to ensure our recommendation is appropriate. Following is a more detailed description of Schwab's support services:

1. **Services that benefit you.** Schwab's institutional brokerage services include access to a broad range of investment products, execution of securities transactions, and custody of Client assets. The investment products available through Schwab include some to which we might not otherwise have access or that would require a significantly higher minimum initial investment by our Clients. Schwab's services described in this paragraph generally benefit you and your account.
2. **Services that may not directly benefit you.** Schwab also makes available to us other products and services that benefit us but may not directly benefit you or your account. These products and services assist us in managing and administering our Clients' accounts. They include investment research, both Schwab's own and that of third parties. We may use this research to service all or a substantial number of our Clients' accounts, including accounts not maintained at Schwab. In addition to investment research, Schwab also makes available software and other technology that:
 - provide access to Client account data (such as duplicate trade confirmations and account statements)
 - facilitate trade execution and allocate aggregated trade orders for multiple Client accounts
 - provide pricing and other market data
 - facilitate payment of our fees from our Clients' accounts
 - assist with back-office functions, recordkeeping, and Client reporting
3. **Services that generally benefit only us.** Schwab also offers other services intended to help us manage and further develop our business enterprise. These services include:
 - Educational conferences and events
 - Consulting on technology, compliance, legal, and business needs
 - Publications and conferences on practice management and business succession
4. **Your brokerage and custody costs.** For our Clients' accounts that Schwab maintains, Schwab generally does not charge you separately for custody services but is compensated by charging you commissions or other fees on trades that it executes or that settle into your Schwab account. Certain trades (for example, many mutual funds and ETFs) may not incur Schwab commissions or transaction fees.

Altruist

WF offers investment advisory services through the custodial platform offered by Altruist Financial LLC, an unaffiliated SEC-registered broker-dealer and FINRA/SIPC member ("Altruist"). WF's Clients establish brokerage accounts through Altruist. WF maintains an institutional relationship with Altruist whereby Altruist

provides certain benefits to WF, including a fully digital account opening process, a variety of available investments, and integration with software tools that can benefit WF and its Clients.

Brokerage for Client Referrals

We receive no referrals from a custodian, broker-dealer or third party in exchange for using that custodian, broker-dealer or third party.

Clients Directing Which Broker/Dealer/Custodian to Use

Our firm recommends Clients establish account(s) at Charles Schwab and Altruist to execute transactions through. We will assist with establishing your account(s) at Charles Schwab Altruist Financial LLC however, we will not have the authority to open accounts on the Client's behalf. Not all investment advisers require their Clients to use their recommended custodian. By recommending that Clients use Charles Schwab Altruist Financial LLC, we may be unable to achieve most favorable execution of Client transactions, and this practice may cost Clients more money. We base our recommendations on the factors disclosed in Item 12 herein and will only recommend custodians if we believe it's in the best interest of the Client.

If Clients do not wish to utilize our recommended custodian, we permit Clients to direct brokerage. We will be added to your account through a limited trading authority. However, due to restraints from not having access to an institutional platform, we are unable to achieve most favorable execution of Client transactions. Clients directing brokerage may cost Clients more money. For example, in a directed brokerage account, the Client may pay higher brokerage commissions because we may not be able to aggregate orders to reduce transaction costs, or the Client may receive a higher transaction price at their selected custodian versus our recommended custodian.

Aggregating (Block) Trading for Multiple Client Accounts

Generally, we combine multiple orders for shares of the same securities purchased for advisory accounts we manage (this practice is commonly referred to as "block trading"). We will then distribute a portion of the shares to participating accounts in a fair and equitable manner. The distribution of the shares purchased is typically proportionate to the size of the account, but it is not based on account performance or the amount or structure of management fees. Subject to our discretion, regarding particular circumstances and market conditions, when we combine orders, each participating account pays an average price per share for all transactions and pays a proportionate share of all transaction costs. Accounts owned by our firm or access persons may participate in block trading with your accounts; however, they will not be given preferential treatment.

Outside Managers used by WF may block Client trades at their discretion. Their specific practices are further discussed in their ADV Part 2A, Item 12.

Item 13: Review of Accounts

Periodic Reviews

Samanda Morales, CEO and CCO of WF, will work with Clients to obtain current information regarding their assets and investment holdings and will review this information as part of our financial planning services. Clients who engage us for investment management services will have their account(s) reviewed regularly on a quarterly basis by Samanda Morales, CEO and CCO. The account(s) are reviewed with regards to the Client's investment policies and risk tolerance levels.

Triggers of Reviews

Events that may trigger a special review would be unusual performance, addition or deletions of Client-imposed restrictions, excessive draw-down, volatility in performance, or buy and sell decisions from the firm or per Client's needs.

Review Reports

Clients will receive trade confirmations from the custodian(s) for each transaction in their accounts as well as monthly or quarterly statements and annual tax reporting statements from their custodian showing all activity in the accounts, such as receipt of dividends and interest.

WF does not provide written performance or holdings reports to Investment Management Clients outside of what is provided directly by their custodian.

Item 14: Client Referrals and Other Compensation

Compensation Received by Wellfin360

WF is a fee-only firm that is compensated solely by its Clients. WF does not receive commissions or other sales-related compensation. Except as mentioned in Item 12 above, we do not receive any economic benefit, directly or indirectly, from any third party for advice rendered to our Clients.

Client Referrals from Solicitors

WF does not, directly or indirectly, compensate any person who is not advisory personnel for Client referrals.

Item 15: Custody

WF does not hold, directly or indirectly, Client funds or securities, or have any authority to obtain possession of them. All Client assets are held at a qualified custodian.

If WF deducts its advisory fee from Client's account(s), the following safeguards will be applied:

- i. The Client will provide written authorization to WF, permitting us to be paid directly from Client's accounts held by the custodian.
- ii. The custodian will send at least quarterly statements to the Client showing all disbursements from the accounts, including the amount of the advisory fee.

In jurisdictions where required, WF will send an itemized invoice to the Client at the same time it instructs the custodian to debit the advisory fee. Itemization includes the formula used to calculate the fee, the amount of assets under management the fee is based on, and the time period covered by the fee.

We urge you to carefully review custodial statements and compare them to the account invoices or reports that we may provide to you and notify us of any discrepancies. Clients are responsible for verifying the accuracy of these fees as listed on the custodian's brokerage statement as the custodian does not assume this responsibility. Our invoices or reports may vary from custodial statements based on accounting procedures, reporting dates, or valuation methodologies of certain securities.

Item 16: Investment Discretion

For those Client accounts where we provide Investment Management Services, WF has discretionary authority and limited power of attorney to determine the securities and the amount of securities to be bought or sold for a Client's account without having to obtain prior Client approval for each transaction. Investment discretion is explained to Clients in detail when an advisory relationship has commenced. At the start of the advisory relationship, the Client will execute a Limited Power of Attorney, which will grant our firm discretion over the account(s). Additionally, the discretionary relationship will be outlined in the Advisory Contract and signed by the Client. Clients may limit our discretion by requesting certain restrictions on investments. However, approval of such requests are at the firm's sole discretion.

If WF has engaged an Outside Manager to assist with the management of Client's portfolio, WF has the discretion to direct the Outside Manager to buy or sell securities for Client's portfolio without obtaining prior Client approval for each transaction.

Item 17: Voting Client Securities

We do not vote Client proxies. Therefore, Clients maintain exclusive responsibility for: (1) voting proxies, and (2) acting on corporate actions pertaining to the Client's investment assets. The Client shall instruct the Client's qualified custodian to forward to the Client copies of all proxies and shareholder communications relating to the Client's investment assets. If the Client would like our opinion on a particular proxy vote, they may contact us at the number listed on the cover of this brochure.

In most cases, you will receive proxy materials directly from the account custodian. However, in the event we were to receive any written or electronic proxy materials, we would forward them directly to you by mail, unless you have authorized our firm to contact you by electronic mail, in which case, we would forward you any electronic solicitation to vote proxies.

Item 18: Financial Information

We have no financial commitment that impairs our ability to meet contractual and fiduciary commitments to our Clients, nor have we been the subject of any bankruptcy proceeding. We do not have custody of Client funds or securities, except as disclosed in Item 15 above, or require or solicit prepayment of more than \$500 in fees six months or more in advance.

Item 19: Requirements for State-Registered Advisers

Principal Officers

Samanda Morales serves as WF's sole principal and CCO. Information about Samanda Morales's education, business background, and outside business activities can be found in her ADV Part 2B, Brochure Supplement attached to this Brochure.

Professional Designation(s)

Accredited Financial Counselor® (AFC) is a certification offered by the Association for Financial Counseling and Planning Education (AFCPE), aimed at professionals dedicated to helping individuals and families enhance their financial well-being. AFC professionals specialize in several core areas: they provide comprehensive financial education to help clients grasp complex financial concepts and apply them to their personal situations; guide clients in managing and reducing debt through strategies tailored to individual needs; assist in creating and maintaining budgets that support achieving financial goals while ensuring daily financial stability; and encourage effective savings habits, aiding clients in planning for significant future expenditures like education, retirement, or major purchases. This certification equips professionals with the tools to offer substantial support and guidance in various aspects of financial management.

Certified Personal Financial Wellness ConsultantSM (CPFWCSM) A Certified Personal Financial Wellness ConsultantSM (CPFWCSM) is a professional who has demonstrated expertise in enhancing personal financial wellness through rigorous training provided by the National Financial Educators Council (NFEC). Upon earning their certification, CPFWCs are exceptionally qualified to engage in a broad range of activities aimed at improving the financial health of individuals and communities alike.

The CPFWCSM program is designed to meet the highest educational standards, ensuring that all consultants not only receive comprehensive training but also practical experience in financial coaching. This hands-on approach is integral to developing effective, real-world financial consulting skills.

Certified Financial Education Instructor – Financial Literacy Certification (CFEI) The NFEC's Certified Financial Education Instructor program helps individuals acquire the expertise, credibility, and self-assurance they need to teach money management lessons effectively. Those that earn the CFEI financial literacy certification report that they experience greater enjoyment teaching and achieve better results among the audiences who attend their presentations.

The CFEI coursework meets standards for the highest academic rigor while providing practical lessons that increase your impact as a financial educator. You will develop skills and learn techniques that help you motivate, engage, and move participants of all ages to take positive financial action.

Graduation from the NFEC's financial literacy certification program demonstrates that you are qualified to teach the subject matter and increases your credibility as a financial education instructor. Graduates of the coursework take their place among the most highly-qualified personal finance educators in the nation, with proven ability to teach essential money management concepts effectively to people of all ages.

Item 3: Disciplinary Information

Samanda Morales has never been involved in an arbitration claim of any kind or been found liable in a civil, self-regulatory organization, or administrative proceeding.

Item 4: Other Business Activities

Samanda Morales is the Co-Founder and CEO at Ahora Inc. Ahora Inc. is a mission-oriented non-profit organization that empowers low-income individuals through financial coaching and literacy. As the co-founder and CEO, Ms. Morales contributes by presenting strategic approaches to boost and foster donor and community engagement. Moreover, as a certified personal finance education instructor, she has facilitated personal finance workshops in diverse communities, such as Lynn, Salem, and Boston. She dedicates 3-4 hours per week to this activity. This is not investment related and does not pose a conflict of interest.

Item 5: Additional Compensation

Samanda Morales does not receive any economic benefit from any person, company, or organization, in exchange for providing Clients advisory services through WF.

Item 6: Supervision

Samanda Morales as Chief Compliance Officer of WF, supervises the advisory activities of our firm. Samanda Morales is bound by and will adhere to the firm's policies and procedures and Code of Ethics. Clients may contact Samanda Morales at the phone number on this brochure supplement.

Item 7: Requirements for State Registered Advisers

Samanda Morales has NOT been involved in an arbitration, civil proceeding, self-regulatory proceeding, administrative proceeding, or a bankruptcy petition.
